

## Civic Season: Juneteenth - July 4th, 2024

*A new tradition, powering our future with history*

### From our Oldest to our Newest Federal Holiday

Juneteenth. July 4th. The 250th anniversary of the United States in 2026. These moments call us to acknowledge our past, strengthen our present and build our future, together. In its fourth summer, **Civic Season** is rolling out the welcome mat to year-round participation in democracy, with a dynamic educational campaign, nationwide events, and a focus on serving young adults - the future inheritors of our democracy.

#### Local + Social Events to Educate and Connect

From trivia nights and bike tours to “Slice of History” Pizza Parties, museums and historic sites lead people in learning about who we were - and who we might become.

#### From Trusted Institutions, For and With the Next Generation

Civic Season Fellows ages 18-30 drive the program’s design and mobilize hundreds of cultural institutions, municipalities, and community groups. **Civic Season will be the youth-focused arm of the U.S. 250th in 2026.**

#### Hundreds of Activities from Credible Sources, Centralized

Quizzes, filters and an interactive guidebook help you build a personalized path through the offerings, no matter your interests, location or time.

### How to Join In

Our goal is for Civic Season to reach 75 million people in the United States by 2026 – the number of Gen Z that will be voting age. Over the next three years, hundreds of institutions and communities of all shapes and sizes will make Civic Season their own, hosting events, inviting dialogue, and making space for “we the people” to write the next chapter of the United States.

→ **Sign up!** Consider hosting a kickoff event on June 15 or bringing Civic Season elements into your planned events.
